

TRIP OVERVIEW

Swimming around Italy's Tremiti Islands is the perfect way to experience this beautiful and remote part of the country. Located in the crystal clear waters of the Adriatic Sea, the four islands that make up this tiny archipelago also form part of the larger Gargano National Park.

The waters that surround the four islands of San Domino, San Nicola, Capraia and Cretacio are known not just for their incredible clarity, but also for the spectacular caves, gorges and arches that make this such a stunning area to explore. On this intimate tour where we'll travel all over the Isole Tremiti archipelago, this trip will see you enjoy a combination of coastal swims, crossings and a full circumnavigation swim of the island of San Nicola and returning back to San Domino each day for lunch. We'll enjoy our week's swim from several small support boats, giving you the opportunity to experience the region's stunning natural beauty from a truly unique perspective.

Our accommodation at Hotel La Vela gives you the opportunity to relax and unwind at the end of the day amongst a peaceful pine forest that sits above the quiet Matano Bay below.

WHO IS THIS TRIP FOR?

This trip is ideal for swimmers who want to explore a remote and less visited part of Italy and the Adriatic Sea. You will have the opportunity to carry out a number of short crossings, longer coastal swims and a full island circumnavigation. Swimmers should have a basic understanding of open water swimming and be capable of completing the average daily swim distance of around 4km (split over a minimum of two swims) prior to the start of the trip.

LOCATION SUMMARIES

Gargano National Park

The "Parco Nazionale del Gargano" is one of Italy's most spectacular areas, encompassing white limestone cliffs, fairy-tale grottoes, sparkling sea and ancient forests. It has more in common with Dalmatia across the Adriatic than with the rest of Italy.

San Domino

Our base for the week, San Domino is the largest of the Tremiti Islands and has a 7km circumference. Pine forests reach right down to the shoreline and junipers, rosemary, myrtle and other fragrant plants dot the coastline.

San Nicola

San Nicola is where most of the local population of 450 resides. It is the site of a monastery where a monk named Nicolò was buried. Legend has it that every time someone tried to move his corpse off the island, a violent storm would break out, preventing its removal.

Capraia

Originally named after the wild goat which roamed these islands, Capraia is the third smallest of the archipelago and is only a 350m swim from San Nicola.

Start Time	18:30 on Day 1
Finish Point	Hotel La Vela, San Domino
Finish Time	10:30 on Day 7

Daily Itineraries

Please note that the below daily itineraries are an example of the swims that may take place during the course of your trip, however, actual swim locations and distances will vary according to local weather and sea conditions. Your SwimTrek guides and local boat pilot will determine the most suitable swim locations each day and will communicate the plan with all guests as soon as possible.

Day 1

We meet at Hotel La Vela where we hold a welcome meeting featuring a description of the days ahead followed by a safety briefing and an optional group dinner.

Day 2

After breakfast we head down to Cala delle Arene for our acclimatisation swim. Following this we have a group coaching session along the beach, including videoing your swim technique for playback later this evening, which gives you the opportunity to get some tips from the guides. We'll then return to the hotel for lunch.

After lunch, we head out for a coastal swim from the white sandy beach of Cala delle Arene to Cale Cesare near the southern tip of the island, allowing you the chance to experience the island of San Domino from a unique point of view. Later this evening, the guides will play back the videos filmed earlier in the day', and offer technique advice.

Day 3

We start off the day on San Domino, swimming into Cala Tonda, a cave set between cliff faces, as well as through the fabulous sea grottoes at Rondinelle before reaching Cala Tamariello. After this we head back for lunch before heading off to Capraia island, which is relatively bare and uninhabited. We start our swim at Punta Secca where we will follow the coastline to Cala Dello Straccionne with the highlight surely being the swim through the Arch of Capraia and the underwater statue of Padre Pio, one of the largest underwater statues in the world.

Day 4

Today we cross to the island of San Nicola, home to a fortress and the Benedictine abbey of Santa Maria a Mare. The swim around this island is a mix of straight coastal swimming and exploring scenic coves and bays. At the end of the circumnavigation, we have the opportunity to visit both the abbey and fortress and to explore the island before returning back to San Domino.

Day 5

We start the morning by heading off to Cala del Turchi on Capraia island, along the southern coast to Cala della Straccione. The island was once called 'Capperia' due to the abundance of caper bushes that still grow there. After lunch back on San Domino, we prepare for our crossing from Capraia to San Nicola to the finish point of Grotta della Madonna.

Day 6

It's the day of our biggest crossing of the week as we swim from the island of San Domino to Capraia and into the bay of Cala dei Turchi. We then return to Hotel la Vela for our final lunch of the trip. In the afternoon, we explore the coastline from the striking headland at Punta del Diamante. The underwater vista here is just as interesting as what is above the surface, with sea caves and stacks dotting this stretch of coastline.

Day 7

After the exertions of the week, it's time for a relaxing swim on the nearby beach which is a short walk from our hotel, before the trip finishes at 10.30.

GETTING THERE

The easiest way to reach San Domino is to fly into Bari International Airport and then take a train to Termoli, followed by a ferry to the island. There are a wide range of airlines serving Bari from various British and European cities and this is the route SwimTrek would recommend.

The Tremiti Islands are also accessible via Pescara and Rome airports. Please note that travelling via Rome involves a significantly longer transfer to Termoli compared to Pescara and Bari.

While we have outlined various travel options below, they are subject to change and should be used as a guide only. Whichever route you choose to take, we recommend confirming your flights and other travel arrangements as early as possible in order to avoid price rises and availability issues. Please note that due to the remote nature of the Tremiti Islands, travel to the islands make take longer than one day.

HOTEL	ADDRESS
Dependance Ludovica	Via Ruffini 10, 86039, Termoli

Please be aware that there is a 10kg baggage limit per person on this flight. Once released, flight timetables for this helicopter journey can be found at www.alidaunia.it.
